CO₂ TO ZERO

WE NEED TO REDUCE OUR EMISSIONS

Desired CO₂ Emissions in Stuttgart --- and Reality ---

Abbildung 2: Verlauf der CO₂-Emissionen der Stadt Stuttgart bis 2005 (ab 2001 geschätzt) und Ziele bis 2020 (minus 40%) bzw. bis 2050 (minus 90%)

Wuppertal Institut für Klima, Umwelt, Energie GmbH

A photograph of a misty forest path. A wooden sign with the word "BREATHE" in large, white, capital letters is mounted on a tree. The path is covered in mist, and there are many green plants and trees around. A wooden railing is visible on the right side of the path.

BREATHE

Lost in Transformation?

Centenary City Ltd, Abuja

Design Team:

AS+P – Albert Speer + Partner, Frankfurt

Transsolar Energietechnik, Munich

Atelier Dreiseitl, Überlingen

Primetech Design + Engineering, Abuja

Land Area: 10 km²

Total GFA: 6 Mio m²

Inhabitants: 135 000

Masterplan: 2013 – 2014

Construction 2015 - 2025

Centenary City Abuja

Framework for sustainability concept

VISION

A self-sustaining
energy efficient city
of the future

STRATEGY

1

Optimize city layout for solar & daylight potential

2

Minimize building energy demand

3

Maximize efficiency of energy production

4

Maximize renewable energy production

The site
